summary

I'm a student of Computer Engineering with a great desire to learn. I especially like the Computing branch, ie, data structures, algorithms, and everything that has to do with scheduling things. Although I do not close the door to anything.

Currently I've started a personal project (EvaluaMe) with which I am putting into practice the knowledge acquired at university.

- Proficient Algorithms
- Data Structures
- Data representation
- Object Oriented Programming
- Android Development
- Multi-Thread Programming
- Distributed Programming
- Version Control Systems (VCS)
- Agile Methodologies
- Angular 2 Development
